

# AZ-Green for Wheat Organic Seed Treatment

- Fixes Atmospheric Nitrogen
- Stimulates Root Growth
- Accelerates Germination
- Better Stand
- Increases Drought Tolerance

## AZ GREEN DRY ORGANIC SEED TREATMENT

2 x 10<sup>5</sup> Azospirillum per ml

Application Rate:  
4 ounces per 100 pounds  
118 ml per 45.4 kg

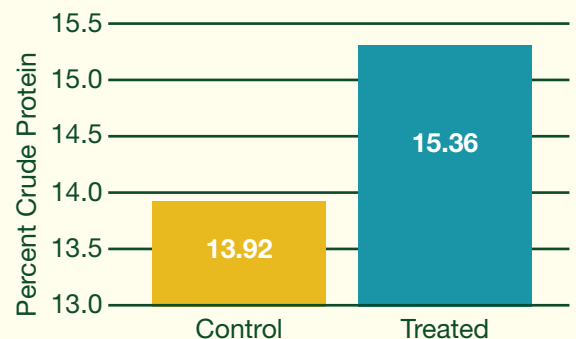

## AZ GREEN LIQUID ORGANIC SEED TREATMENT

2 x 10<sup>5</sup> Azospirillum per ml

Application Rate:  
4 fluid ounces per 100 pounds  
118 ml per 45.4 kg

AZ Green-Liquid™ is known to fix atmospheric nitrogen, adding to the nitrogen available to the plant. AZ-Green Liquid™ potentiates nitrogen utilization in the plant. Azospirillum bacteria have been known to improve root systems and increase yields for some time. However, in the past keeping bacteria viable under field conditions for on farm use was the limiting factor. Using proprietary formulation technology AZ-Green Liquid™ has been stabilized for at least one year at 95°F. This key to AZ-Green Liquid™ performance. On farm trials consistently produced 4–8 bushel/acre yield increase (*Past performance is not a predictor of performance and AZ-Green Liquid™ carries no guarantee of performance on your farm.*)
