

Maximizing Earth's Potential

Optimum Peanut

Dry Seed Treatment for Peanuts

Optimum Peanut is a high-performance peanut inoculant that promotes strong nodule development through Bradyrhizobium while enhancing root mass with Azosprillum. TerraMax's stabilization process optimizes bacterial viability, ensuring consistent performance from the lab to planting.

Directions for Use

Use at a rate of 1 oz. per 50 lbs. of seed.
Mix well with seed to assure even coverage.
Plant as soon as possible after treatment.
Avoid breathing dust.

Guaranteed Analysis

2×10^6 Bradyrhizobium spp. per gram.
 2×10^4 Azosprillum brasilense per gram.

Optimum Peanut

Liquid In Furrow Treatment for Peanuts

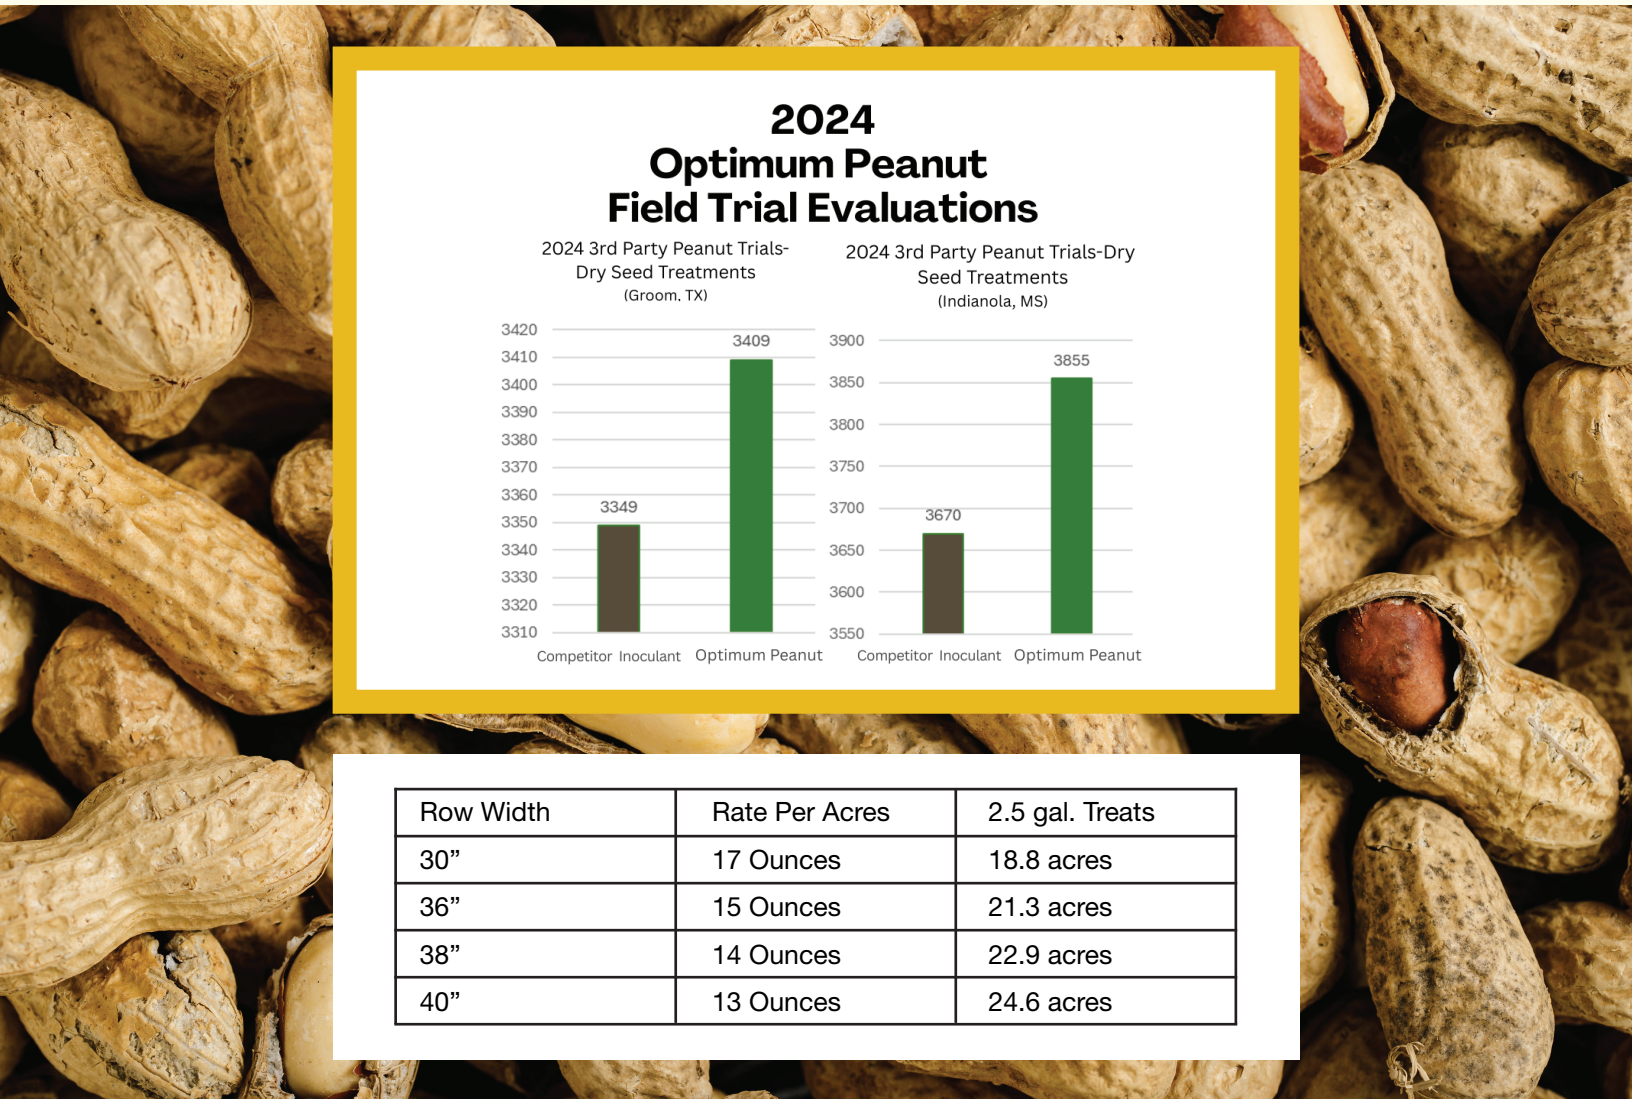

Optimum Peanut is a peanut inoculant that enhances nodule development that is associated with Bradyrhizobium with the increased root mass characteristics of Azosprillum. Our unique stabilization process optimized the life of the bacteria from lab to planting.

Guaranteed Analysis

2 x 10⁶ Bradyrhizobium spp. per gram.
2 x 10⁴ Azosprillum brasilense per gram.

Optimum Peanut Compared to a Competitor's Inoculant

Limited Warranty: TerraMax, Inc. guarantees that this product conforms to its label description and is suitable for its intended use when used in accordance with the label directions before the expiration date. TerraMax, Inc. or its representative must be notified of any field complaint within 60 days after planting. TerraMax, Inc.'s sole obligation under the warranty shall be to refund the purchase price.
